OUR RESPONSIBILITY...

Transportation is the keystone of social justice and as such we serve a higher purpose by enhancing mobility at large.
Mobility Mine

Bill Long
We believe that the future is in the cloud...

... a cloud called Mobility Mine

We make data readily available and bring it into a form and a place that is most useful, a Cloud called Mobility Mine. This creates the interface between Transit, riders by way of the Internet of Things. This is a game changer.
Mobility Mine is a cloud based service connecting riders, transit, and agents...

We do this by:

- Creating a structured cloud based interface to the Agency
- Installing and maintaining the Mobility Mine On Board System on buses and subway fare gates
- Enabling 3rd party agents to provide transit payment solutions
