

Project Title: **C-08-12: Mobile Source Air Toxics (MSATs) Mitigation**
PIN: R021.45.881
Responsible Unit: NYSDOT Environmental Analysis Bureau
Project Manager: Leslie, Catherine

Project Goal:

The project goals are to evaluate the effectiveness of several strategies in mitigating MSAT impacts, and establish recommended MSAT mitigation measures specific to New York

Actions Proposed:

- Identify potential MSAT mitigation strategies (based on FHWA interim guidance and project experience)
- Evaluate the effectiveness of the identified strategies in mitigating MSAT impacts and the feasibility of implementation
- Establish recommended MSAT mitigation measures specific to New York State
- Prepare a report describing the findings of the study and recommended measures

Anticipated Work Products and Accomplishments:

The project is anticipated to result in a document describing the findings of the study and recommended mitigation measures. The document would be intended for use by NYSDOT and other state agencies, consultants, municipalities, and interested organizations.

Proposed Budget: \$323,250
